

## Raw Materials Responsible Sourcing and Supply Chain Commitment

Solar Applied Materials Technology Corporation (SOLAR) follows OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, London Bullion Market Association (LBMA) Responsible Guidance for Gold and Silver, London Platinum and Palladium Market (LPPM) Responsible Platinum and Palladium Guidance, and Responsible Minerals Assurance Process (RMAP) of the Responsible Minerals Initiative (RMI). Following the guidelines, we ensure responsible mineral sourcing, prevent money-laundering, combat contribution to war crime or armed groups, avoid violations of international humanitarian law and ensure compliance with regulations and policies to promote environmental sustainability.

- 1) Being aware of OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas;
- 2) Acknowledging and following Responsible Minerals Initiative;
- 3) Constructing a supply chain management system, responsible sourcing policy and complying with Global Precious Metals Conduct;
- 4) Minimizing adverse impacts on biodiversity and protecting natural habitats;
- 5) Managing the use of cyanide and mercury shall such material is involved in your mining process, complying with the International Cyanide Management Code and supporting the implementation of Extractive Industry Transparency Initiative (EITI) whenever possible.

We refer to the following guidance and act to ensure that our supply chain comply with the requirements. The OECD – Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High Risk Areas

- The SEC – Dodd-Frank Wall Street Reform and Consumer Protection Act Section 1502
- The RMI – Responsible Minerals Assurance Process, RMAP
- The LBMA – Responsible Gold Guidance, Responsible Silver Guidance
- The LPPM – Responsible Platinum and Palladium Guidance
- The LBMA – Global Precious Metals Code

In addition, SOLAR:

- 1) Carries out responsible mineral sourcing and adopts supply chain risk assessment continuously to comply with terms and requirements of the LBMA, LPPM, RBA and RMI. We review commitment made by our business partners and identify potential risks. If any of the above mentioned acts were identified, or should there be any reasonable risk of violation during the procurement and trading processes, or if high risks and illegal conduct were identified, we will perform supply chain due diligence to reassess any misconduct and implement follow-up measures to mitigate the risk, suspend trade or discontinue business engagement immediately.
- 2) Promotes due diligence supply chain policy to staff and business partners.
  - Train staff involved in the supply chain;
  - Urge staff, agents, business partners to comply with the policy
